

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Anthurium

Anthurium species

Anthurium are grown indoors for their bright red and burgundy leaves that bring beautiful color into your green space.

Indoor plant

70°–85°

Outdoor plant

65°–85°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☰ Care

Moderate care level, but it's well worth the effort!

☀ Light

Medium to bright indirect light. Never direct sunlight.

💧 Water

Water thoroughly, but allow it to dry slightly between waterings.

🐾 Pets

Keep away from pets. All parts of the plant are poisonous.

Impress your friends with this cool fact

Each plant lives up to 10 years, but if propagated, it can live for decades.
