

# Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at [support@livelyroot.com](mailto:support@livelyroot.com). We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

# Basil Genovese Jumbo

*Ocimum basilicum*

Many chefs use Basil interchangeably considered sweet basil! She has her distinctive taste that mar-ries well with anything remotely Italian. Try her in pestos, tomato sauces, pasta, or a salad.

**Indoor plant**

72°–82°

**Outdoor plant**

72°–82°

## ✓ Success Tips

### Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from it's dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

### Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

## ☼ Care

The optimal temperatures to grow basil are in warm temps at 72°F-90°F. In these temps, you'll have several harvests.

## 💧 Water

Keep the soil consistently moist but not soggy.

## ☀ Light

Place this plant in full sun (6-8 hours) to part sun (4-6).

## 🐱 Pets

Safe for pets.

## Impress your friends with this cool fact

Flowers are aromatic nightly to entice sphinx moths to pollinate them, although the flowers yield no nectar.
