Black Goldfish Plant

Nematanthus wettsteinii species

Black Goldfish Plant (*Nematanthus wettsteinii*) is an exotic flush of orange-colored pouch flowers that resemble goldfish. He's a slow swimmer, so don't expect him to grow very fast.

Indoor plant

65°–75°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☰ Care

If winterizing indoors, average indoor temps are fine as long as he is close to a window getting direct light.

💧 Water

Let the soil dry by 1/3 during the spring, summer and fall and less in the winter months unless its under grow lights.

☀ Light

This plant prefers bright, indirect light to promote blooming!

🐱 Pets

Non-Toxic for pets.

Impress your friends with this cool fact

Folklore reveals that the Goldfish flower is a symbolic way to tell someone you miss them and want them to return.
