✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

Keep this plant consistently in warm temperatures inside with night temperatures decreasing to only 60°F-70°F.

💧 Water

Let the soil dry between waterings.

☀ Light

Medium to bright indirect light. Never direct sunlight.

🐱 Pets

Safe for pets.
