

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Chives

Allium schoenoprasum species

Chives are a slender, aromatic herb having a milder flavor than onions or garlic. The plant grows on thin stems embellished by pretty purple blooms.

Indoor plant

40°–85°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

This plant prefers temperatures on the cooler side but not dipping below freezing.

☼ Water

Water well and then allow the top one inch of soil to dry out between each watering.

☼ Light

Enjoys bright, full sunlight 6-8 hours daily.

🐱 Pets

Toxic to pets.

Impress your friends with this cool fact

Flowers are aromatic nightly to entice sphinx moths to pollinate them, although the flowers yield no nectar.
