

# Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **[support@livelyroot.com](mailto:support@livelyroot.com)**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) 

# Coffee Plant

*Alocasia species*

Coffee Plants exhibit attractive, glossy, dark green leaves, growing 4"-5" inches in length. This plant bears star-shaped, pleasantly scented white flowers. In the native environment, the flowers will produce green fruits that ripen to black.

**Indoor plant**

65°–80°

## ✓ Success Tips

### Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

### Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

## ☼☼☼ Care

Keep the soil moist and the humidity level high around this plant to mimic its native environment.

## ☼☼☼ Water

Use filtered water sitting 24 hours to release the chemicals. Make sure it stays consistently moist & don't let it dry out.

## ☼ Light

Keep this plant in brightly lit conditions to help it thrive and grow fast.

## 🐱 Pets

Toxic to ingest.

## Impress your friends with this cool fact

You might see your *Alocasia* sweat. Guttation, as it's called in the horticulture world, is a way to restore balance to their nutrient and water content.
