✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

Growth is optimum for the Hoya when the temps are warmer. Keep away from cool drafts.

💧 Water

It's a hardy plant but still needs watering when the soil dries on top. Water and let drain well every 7-10 days depending on the climate.

☀ Light

This plant can tolerate medium light conditions but will bloom in brighter indirect light.

Safe for pets.

Impress your friends with this cool fact

This plant is sustainable and adaptable in varied environments and conditions, encouraging tales of recognition, blessings, and recovery.
