

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) 

Miniature Rose

Rosa chinensis minima

These plants most often bloom in April and September. To create their beautiful blooms, make sure they get some humidity and don't get too hot!

Indoor plant

60-70°

Outdoor plant

60-70°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

Keep this plant in a humid space to keep it happy!

☀ Light

Place your rose where it will get full sunlight for 6-8 hours.

💧 Water

Keep the soil moist but not soggy. Water the soil in the morning hours and do not get the leaves wet to avoid fungal issues.

🐾 Pets

Pet Safe, though thorns can sting!

Impress your friends with this cool fact

Roses have been in cultivation since the Han Dynasty in 141-87 BC and were a part of the Imperial Palaces.
