

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) 

Norfolk Island Pine

Araucaria heterophylla species

This plant's evergreen form holds whorled, parallel branches in layers. He will do double-duty for the sights of the season as well as a great houseplant throughout the year growing up to 3-5' over time!

Indoor plant

55°–65°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☰ Care

Keep this plant in cooler temperatures with lots of moisture in the air to imitate their natural environment.

☁ Water

Keep consistently moist during the spring and summer. Let the soil dry a bit more in the winter.

☀ Light

Rotate your Norfolk plant in front of a bright, direct light window for all sides to get enough light for photosynthesis.

🐱 Pets

Toxic for pets.

Impress your friends with this cool fact

The Norfolk Pine is not a pine, and is actually from the *Araucaria* genus, named after the Araucanian Indians from central Chile.
