

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Plumeria

Plumeria species

Plumerias display thick stems and leathery leaves, displaying fragrant white flowers from early summer until the fall season. Use these as a privacy hedge in warmer climate zones reaching up to 30' in height.

Outdoor plant

65°–85°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☰ Care

Keep this plant in rooms where the temperature is 65°F–85°F and avoid cold drafts or air vents below 55°F.

☁ Water

Let the outdoor soil dry between waterings, and water sparingly in the winter.

☀ Light

This plant will do well outside on the southeast side to avoid afternoon heat. Give at least 6 hours of morning sun.

🐱 Pets

Toxic for pets to touch.

Impress your friends with this cool fact

Plumeria is used in several Pacific islands to create leis. In Southeast Asia, folklore teaches they provide shelter to ghosts.
