

lively root

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) 

Star Jasmine

Trachelospermum species

Trachelospermum are a common genus of plants that include varieties such as star of jasmine and chinese ivy.

Indoor plant

65°–75°

Outdoor plant

60°–75°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

Easy to care for. Great for beginners!

☀ Light

Indoors: Bright direct light.

Outdoors: Full sun.

💧 Water

Allow the soil to dry out between waterings.

🐱 Pets

Safe for pets!

Impress your friends with this cool fact

Folklore records that the star jasmine was like a compass and lead traders in the right direction if they were of good character.
