

# Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **[support@livelyroot.com](mailto:support@livelyroot.com)**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) 

# Stromanthe Tricolor

*Stromanthe sanguinea species*

Who can resist those Monet-like variegations in cream, pink, and green? If that weren't enough, as they fold their leaves at night, she shows off her maroon-colored slip on the underside of her leaf.

**Indoor plant**

60°–75°

## ✓ Success Tips

### Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

### Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

## ☰ Care

Keep this plant in rooms where the temperature is a comfortable 65°F-75°F and avoid cold drafts or air vents.

## ☁ Water

Keep this plant consistently moist but not soggy. Avoid letting it sit in water, as it can suffer from root rot.

## ☀ Light

Bright, indirect light is the best for this plant.

## 🐱 Pets

Non-Toxic for pets.

## Impress your friends with this cool fact

The leaves fold upwards at night, showing of the rosy pink bottom. In the morning, the leaves will face the east to absorb the morning light.
