Succulents

Echeveria species

Echeveria are a common succulent variety that are sure to cheer up your indoor or outdoor green space. Keep them out of the cold and they will make you happy for years to come!

Indoor plant

70°–85°

Outdoor plant

55°–95°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☰ Care

Easy for beginners and a great starter plant!

☀ Light

Loves bright light - as much as it can get.

💧 Water

Succulents require water to survive, but can sustain long periods of drought.

🐱 Pets

Safe for pets.

Impress your friends with this cool fact

While the most common echeveria color is green, you can find them in almost any color of the rainbow, including red, orange, yellow, and purple.
