

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

French Thyme

Thymus vulgaris

French Thyme (*Thymus vulgaris*) is a mounding plant of spreading gray-green foliage that thrives in Mediterranean climates. He does best with neglect and will grow in poor soil conditions.

Indoor plant

68°–86°

Outdoor plant

68°–86°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

This culinary herb or groundcover prefers moderately dry climates and mild winters in full sun.

☼ Light

Plant this herb in full sun (6-8 hours).

💧 Water

Thyme is a drought tolerant plant once it gets established. Water the first several weeks if natural irrigation isn't available. Let it dry between waterings.

🐱 Pets

Safe for pets.

Impress your friends with this cool fact

Flowers are aromatic nightly to entice sphinx moths to pollinate them, although the flowers yield no nectar.
