

lively root

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Areca Palm

Dypsis lutescens

Place Areca Palms where there is headroom to grow, like in a foyer stairwell or outside porch area in a container. Keep slightly humid.

Indoor plant
55-75°

Outdoor plant
55-75°

✓ Success Tips

Unwrapping your plant:

When you unwrap your airplant, find a home for it that gets at least 2-3 hours of full sun a day. You can hang, mount or let your air plant sit freely on a shelf.

Watering and drainage:

Put your Tillandsia into a bucket or container of lukewarm water for 30 minutes. Afterwards, turn the plant upside down and shake it to remove any excess moisture: you don't want any water to remain in the crown. Normally, a good "soak" once a week will suffice for species with very silvery or greyish foliage. For more mesic types, with green foliage, two or three weekly soakings are necessary.

☼ Care

Keep this plant away from drafts. Prefers humidity.

☼ Light

Prefers medium levels of indirect light.

💧 Water

Water well and then allow the soil to dry completely between each watering.

🐱 Pets

Safe for pets.

Impress your friends with this cool fact

This medium-sized palm can reach heights of 65 feet, and the leaves can reach up to 6 feet.
