

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Begonia

Begonia

Begonias are often used to express appreciation, friendship, and unity to the recipient. Each plant may show off different colored flowers with a special meaning for each color as well.

Indoor plant

55°–72°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☰ Care

Indoors: 55-72°F but prefers the warmer side

☾ Water

Water well with filtered water and allow soil to fully dry out between each watering. Water less frequent in winter.

☀ Light

Indoors: Bright to medium, indirect light. Outdoors: Place this plant in part shade (early morning) to full shade.

🐱 Pets

This plant can cause symptoms like vomiting or oral discomfort. The roots are the most toxic.

Impress your friends with this cool fact

Flowers are aromatic nightly to entice sphinx moths to pollinate them, although the flowers yield no nectar.
