

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Black Mamba Petunia

Petunia 'Wespecrablama' species

Our 'Crazytunia Black Mamba' has a mounding growth habit with black, velvety flowers that grow beyond the foliage. Rare colored black flowers stand out against green foliage and add elegant, dramatic color to your garden.'

Indoor plant

52°–75°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

Prefers daytime temps between 58°F and 75°F and night time temps between 52°F and 62 F.

💧 Water

Allow these petunias to dry a bit between waterings. Avoid long periods of wilting or wet soil. Soggy soil will cause root diseases.

☀ Light

Inside overwintering: Keep in bright light. Outside: After the last frost, plant in spring when the soil temperature is at 70°F in full sun.

🐱 Pets

Safe for pets.

Impress your friends with this cool fact

Flowers are aromatic nightly to entice sphinx moths to pollinate them, although the flowers yield no nectar.
