

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Calandiva

Kalanchoe blossfeldiana

An easy-to-grow, long-blooming succulent, Calandivas are a mainstay of just about any low care space that wants a splash of color!

Indoor plant

64-70°

Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

Care

Avoid fluctuations in temperature keeping them away from drafts.

Light

Bright, indirect light to filtered sun.

Water

Allow the soil to dry between waterings.

Pets

Toxic to Ingest.

Impress your friends with this cool fact

Also known as Calandiva Kalanchoe, this plant was developed in the Netherlands and is grown as a busy, evergreen succulent.
