

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) 

Candy Corn Plant

Nematanthus species

Candy Corn Vine is a colorful plant with a profusion of red-orange tubular flowers that have been kissed on the ends in yellow lipstick! Keep her hanging around in a basket or creeping up a trellis.

Indoor plant

65°–75°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☀ Care

If winterizing indoors, average indoor temps are fine as long as he is close to a window getting direct light.

☀ Light

Add this plant to your full sun garden (6-8 hours) when temps are above 55°F.

💧 Water

Keep the well-draining soil consistently moist during the spring, summer and fall and less in the winter months.

🐱 Pets

Non-Toxic for pets.

Impress your friends with this cool fact

The Candy Corn Plant is part of the Rubiaceae family, including gardenias and coffee plants!
