

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Christmas Cactus

Schlumbergera species

Enjoy this tropical bloomer, *Schlumbergera bridgesii* or Christmas cactus in the dead of winter with their beautiful, exotic colored blooms profusely having a party on top of the succulent leaves!

Outdoor plant

50°–80°

Indoor plant

50°–80°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☀️ Care

Does best in warm temperatures during the day between 70–80°F and night temperatures from 50–55°F.

💧 Water

Water when soil is dry on the top inch. Always consider the environment. If in a hot, dry climate, it may require watering every 2 to 3 days.

☀️ Light

Bright, indirect light. Don't put into direct sun or it will bleach out their foliage.

🐱 Pets

Safe for all pets.

Impress your friends with this cool fact

Flowers are aromatic nightly to entice sphinx moths to pollinate them, although the flowers yield no nectar.
