# Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

# Cordyline

*Cordyline*

The fan-like leaves of these plants can grow from 12-24 inches! Give these plants plenty of humidity so they can thrive.

*Indoor plant*

70°–90°

## ✓ Success Tips

### Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

### Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

## ☼ Care

Keep this plant in a humid space to keep it happy!

## ☀ Light

Likes indirect bright light but can handle less. Direct sun will burn leaves.

## 💧 Water

Water well and then allow the soil to dry out between each watering.

## 🐱 Pets

Toxic to Ingest.

## Impress your friends with this cool fact

In the Hawaiian culture, the leaves are used to make leis and hula skirts for traditional dancing and celebrations.
