

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) 

Curly Lipstick Plant

Aeschynanthus radicans 'Curly' species

This plant has wavy, curled leaves. Tubular clusters of flower buds emerge at the stems' ends that look like a red lipstick tube ready to paint the lips! Flowers bloom in red and can flower throughout the year.

Indoor plant

72°–85°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

To keep your plant blooming, avoid cooler temperatures under 70°F.

☀ Light

This plant prefers bright, indirect light to promote blooming!

💧 Water

Let the plant dry out about 75% between waterings. Use filtered water, and let drain completely.

🐱 Pets

Non-Toxic for pets.

Impress your friends with this cool fact

The Curly Lipstick Plant grows in the crooks of tropical trees hanging on by aerial roots. They grow much like orchids, bromeliads, and air plants.
