

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Ficus Ginseng

Ficus microcarpa

The dense, glossy, dark green foliage is perfect for shaping, making them a popular pick for bonsai.

Indoor plant
60-80°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

Does best with high humidity, warmer rooms, and bright (indirect) light.

💧 Water

Allow the soil to dry between waterings. Use filtered or bottled water.

☀ Light

Give this plant Can live in medium light but performs better when exposed to bright light. Direct sun will burn leaves.

🐱 Pets

Toxic to ingest.

Impress your friends with this cool fact

In the wild, the Ficus Ginseng can grow over 65 feet!
