

# Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at [support@livelyroot.com](mailto:support@livelyroot.com). We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

# Fiddle Leaf Fig

*Ficus lyrata*

These plants are known for their large leaves and vibrant greens. They are one of the most popular and iconic houseplants!

**Indoor plant**  
60-75°

## ✓ Success Tips

### Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

### Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

## ☁ Care

This plant requires extra care - make sure to keep it humid and happy!

## ☀ Light

Medium to bright indirect light. Never direct sunlight.

## 💧 Water

Keep the soil moist but not soggy. Water the soil in the morning hours and do not get the leaves wet to avoid fungal issues.

## 🐱 Pets

Toxic to Ingest.

## Impress your friends with this cool fact

This plant was named after the instrument because of its fiddle-shaped leaves.
