

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Heart Leaf Fern

Hemionitis arifolia

This fern isn't your usual lacey shape. Instead, their heart-shaped or tongue-shaped leaves have a leathery feel to them.

Indoor plant
60-85°

Outdoor plant
60-85°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

This plant requires extra humidity and light.

☼ Light

Bright indirect light.

💧 Water

Keep the soil moist but not soggy. Use filtered or bottled water.

🐱 Pets

Pet-Safe.

Impress your friends with this cool fact

The Heart Leaf fern grows best in conditions with lots of humidity, like a paludarium or a terrarium enclosure.
