## ✓ Success Tips

### Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

### Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

## ☼ Care

Keep them at a medium humidity and in bright light to keep them happy!

## ☀ Light

Give this Friendship Bamboo bright, indirect light to help the green leaves flourish.

## 💧 Water

Keep the soil consistently moist (but not soggy). Use filtered or bottled water.

## 🐱 Pets

Toxic to Touch.

## Impress your friends with this cool fact

The stems of this plant are often trained to grow in curves and loops to add to their aesthetic appeal!
