

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Mandevilla Red

Mandevilla Madinia Maximo Red species

Plant your Mandevilla close to a window in a hanging basket to enjoy the hummingbirds as they act as a feeder for them with their trumpet-like blooms.

Indoor plant

65°–75°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

Add this plant to the patio garden when temperatures remain above 50°F in a sunny spot for 4-8 hours.

☼ Light

Place in full to part sun to keep the plant blooming and to maintain their growth.

💧 Water

This plant likes to be kept moist in well draining soil all blooming season.

🐱 Pets

Toxic to pets if ingested.

Impress your friends with this cool fact

Flowers are aromatic nightly to entice sphinx moths to pollinate them, although the flowers yield no nectar.
