Maidenhair Fern

Adiantum species

Adiantum plants are commonly referred to as ferns. They are loved for their delicate fronds that are said to resemble hair. They are a gorgeous addition to your indoor green space.

Indoor plant

65°–80°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

Enjoys humidity. Spritz occasionally.

☀ Light

Enjoys medium levels of indirect light.

💧 Water

Water well and then allow the soil to dry out between each watering.

🐱 Pets

Safe for pets.

Impress your friends with this cool fact

Maidenhair fern is the source of a pleasantly aromatic volatile oil long used as a rinse or shampoo that rendered black hair very shiny, hence the name Maidenhair.
