

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) 

Maranta Prayer Plant

Maranta leuconeura species

The Maranta Red Prayer Plant has their own internal clock exemplified in their daily rhythm. They lift their leaves in the evening and lower them in the morning, mimicking praying hands.

Indoor plant

65°–75°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☁ Care

Guard your Prayer Plant against temperatures below 60°F and keep them happily humid!

💧 Water

Keep its soil evenly moist, using filtered or bottled water. Don't let the roots sit in standing water, and water less during the winter.

☀ Light

Medium to bright indirect light. Never direct sunlight.

🐱 Pets

Non-toxic for pets.

Impress your friends with this cool fact

Marantas are a symbol of gratitude, therefore making an appropriate 'thank you' gift!
