

lively root

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) 

Monstera

Monstera species

The unusual leaves of these plants have made them hugely popular! Keep them very humid to keep them thriving.

Indoor plant

65°–85°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☼ Care

Keep this plant in a humid space to keep it happy!

💧 Water

Water well and then allow the soil to dry out between each watering.

☀ Light

Prefers indirect bright light. Direct sun can burn leaves.

🐱 Pets

Toxic to ingest.

Impress your friends with this cool fact

By developing holes in their leaves, the large Monstera leaves are better suited to withstand heavy rainfall and wind.
