Peace Lily

Spathiphyllum species

Spathiphyllum are gorgeous plants that are sure to create a lovely ambience in your green space. The care instructions below will guide you to enjoying your plants charm for years to come.

Indoor plant

65°–75°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☰ Care

Very easy to care for and perfect for beginners.

☀ Light

Best in medium light, but will tolerate a range of low to high.

💧 Water

Allow the soil to dry out between waterings.

🐱 Pets

Toxic to pets

Impress your friends with this cool fact

Peace Lilies are representatives of peace. The white flower is the symbol of the white flag, which is understood internationally as a signal of ceasefire.
