

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Pineapple

Ananas species

The Ananas genus of plants are commonly referred to as pineapple plants. Your pineapple will grow happily both inside and outside in the proper climate.

Indoor plant

70°–85°

Outdoor plant

55°–95°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☀ Care

Surprisingly easy and fun to grow. Propagate by cutting the top off the fruit and setting it in soil.

💧 Water

Water well and then allow the soil to dry out between each watering.

☀ Light

Enjoys bright, indirect light.

🐱 Pets

Can be toxic to pets, cats and dogs if ingested.

Impress your friends with this cool fact

Pineapples contain the bromelain enzyme which can break down proteins, so you can use them to tenderize meat.
