

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at **support@livelyroot.com**. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Sago Palm

Cycas species

Cycad plants are a prehistoric plant that have been delighting people for thousands of years.

Enjoy yours indoors or outdoors in warm climates.

Indoor plant

70°–85°

Outdoor plant

55°–95°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☰ Care

Very easy to care for and perfect for beginners.

☀ Light

Grows best in bright, direct light.

💧 Water

Water well and then allow the soil to dry out between each watering.

🐱 Pets

Toxic to humans, pets, cats and dogs.

Impress your friends with this cool fact

Cycads date as far back as 280 million years!

Show off your plant: #livelyroot

Post your new plant with #livelyroot to be entered into our monthly drawing to win a new plant!
