

Welcome To Lively Root

We are delighted you have grown your Lively Root plant family. If you have any problems, need plant advice, or just want to have a great plant conversation, email us any time at support@livelyroot.com. We are incredibly thankful to have the opportunity to share our love of plants with you.

(Care Card on reverse!) ↘

Yucca Cane

Yucca gigantea

Extremely easy to care for, these plants do best with well-draining soil. You can transplant the "pups" that grow at the base to easily propagate!

Indoor plant

60°–80°

Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. There is a layer of moss next to the soil that can remain as a mulch, or you can choose to remove it.

Watering and drainage:

When watering your new plant, remove the grower pot from the container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

Care

Perfect for beginners, just give them plenty of light!

Light

Enjoys bright, direct sunlight.

Water

Allow the soil to dry between waterings. Use filtered or bottled water.

Pets

Toxic to Ingest.

Impress your friends with this cool fact

This plant is native to Guatemala and Southeast Mexico.
