ZZ Plant

Zamioculcas species

Zamioculcas is a unique and hearty plant that is commonly known as the ZZ plant. If this is your first houseplant, you made the right choice, if it is your 100th plant, it is likely to become your favorite.

Indoor plant

70°–85°

Outdoor plant

55°–95°

✓ Success Tips

Unwrapping your plant:

To help your plant receive the oxygen and water it needs, please remove the plant from its dirt bag. Do not repot for the first 30 days after it arrives to avoid transplant shock.

Watering and drainage:

When watering your new plant, remove the grower pot from the eco pot or decorative container and place it over a sink. Allow the plant to drain fully before putting the grower pot back into the decorative container.

☰ Care

Super easy to care for and perfect for beginners!

💧 Water

Allow the soil to dry out completely between waterings.

☀ Light

This plant prefers low to medium light.

🐱 Pets

Toxic to pets.

Impress your friends with this cool fact

The ZZ plant can produce little white, spathe-type flowers near the base of its stalk, which is almost identical to the flowers of a peace lily.
